Entered as second-class matter at the postoffice at Appomattox, Va., under Act of Congress of March 3, 1879.
All communications for publication should reach the office not later than Wednesday morning each week.
The columns of the Times-Virginian are open for the discussion of any subject affecting the public good.
Address all correspondence to the Times-Virginian, Appomattox, Va.

Editorial

SOME REAL HELP

There are many who will acknowledge that the work of the Administration, better known as the C. W. A., is the major step taken thus far that directly aids the forgotten man. President Roosevelt is living up to his campaign pledges.
All of the recovery measures have been of a fine nature and have helped. But more than any other plans adopted, this helps the man at the bottom of the financial heap. The low man is now coming for his share.
This consideration should lead us to iron out any local question of how and where the money should be spent. The main thing is to give employment and give the general public money to spend.

For three centuries Virginia has seen governors, appointed by the people, come and go. Many illustrious figures have held the post.
George Campbell Perry, of the Southwest, is now the fifth governor of Virginia.
He brings to the duty rare abilities and a well trained intellect. His message of Wednesday was well thought out and went the limit for roads and schools. His methods of raising money to finance his program may or may not pan out.
But his address revealed an able and sagacious mind coupled to a will to serve the people.

The Weather
An interesting statement from the weather bureau points out that actual weather tends to create more seasonal weather and this is especially true of the middle months of January-February and the mid-summer ones of June-July. This statement is based on facts gathered from records kept in several mid-western states over a long period of years.
These meteorologists point out that a cold or stormy January is apt to be followed by a hot and stormy February. An unusually hot or dry June is likely to be followed by an exceptionally hot or dry July. In many states August has a tendency towards the July weather. The sun rotates in a little less than a month, and this may come a weather rhythm.

After Four Years Finds Spoon Hook With Fish
Hoguen, Wash. — Robert Fulton was four years trying to get back a spoon hook he loaned Frank Silva. Recently he recovered it from the Columbia river with a quite large Chinook salmon securely hooked. Silva, fishing from a boat, hooked a large fish, but the line snarled.
Fulton, fishing near the spot, did not get a strike but on pulling up anchor found a 20-foot fish line fouled to the rope. He pulled on it and retrieved a 20-pound salmon. Both agree on their stories.

Moslems File Suits to Protect Beards
Bombay — An English court has to decide an injunction suit brought by a number of Moslems against High Priest Mulla Sahib, who has excommunicated various members for having shaved off their white beards. The Moslem members seek to enjoin the high priest from interfering with their beards.

Famous Pipers Honored
With Memorial and Cairn
A monument to the family of Macdonald has been erected on Skye, the largest island of the Inner Hebrides. Scotland. The Scotsmen of Edinburg's relatives who the Macdonalds.

Science says Today use a LIQUID Laxative

If you want to GET RID of Constipation worries—

Any hospital offers evidence of the harm done by harsh laxatives that drain the system, weaken the bowels, and in some cases even affect the liver and kidneys.
A doctor will tell you that the surest choice of laxative is a common cause of chronic constipation.
Fortunately, the public is fast returning to the use of laxative in liquid form.
A properly prepared liquid laxative brings a perfect movement. There is no discomfort at the time and no weakness after. You don't have to take "a double dose" a day or two later.

In buying any laxative, always read the label. Not the claims, but the contents. If it contains one of the "drugs" listed below, it is a "strong" laxative. It is a "strong" laxative which is perfectly safe for use. It is a "strong" laxative which is perfectly safe for use. It is a "strong" laxative which is perfectly safe for use.

Dr. Caldwell's Syrup Pepsin is a prescription preparation in which there are no mineral drugs. Its ingredients are on the label. By using it, you avoid danger of bowel strain. You can keep the bowels regular and comfortable; you can make constipated spells as rare as colds.

Build Up Health and Pains Go Away

WOMEN who suffer from weakness often have many aches and pains which a stronger state of health would prevent.
Women in this condition should take Cardui, a purely vegetable tonic that has been in use for over 10 years. Take Cardui to improve the general tone of the system in case of run-down health and "nervousness." Women have found, in such cases, that Cardui helps them to overcome pain and make the monthly periods easier.
CARDUI is safe and wholesome for women of all ages. Try it! Write for the drug store.
